

# Priority 1

Objective 1:

Increased skills for life & learning

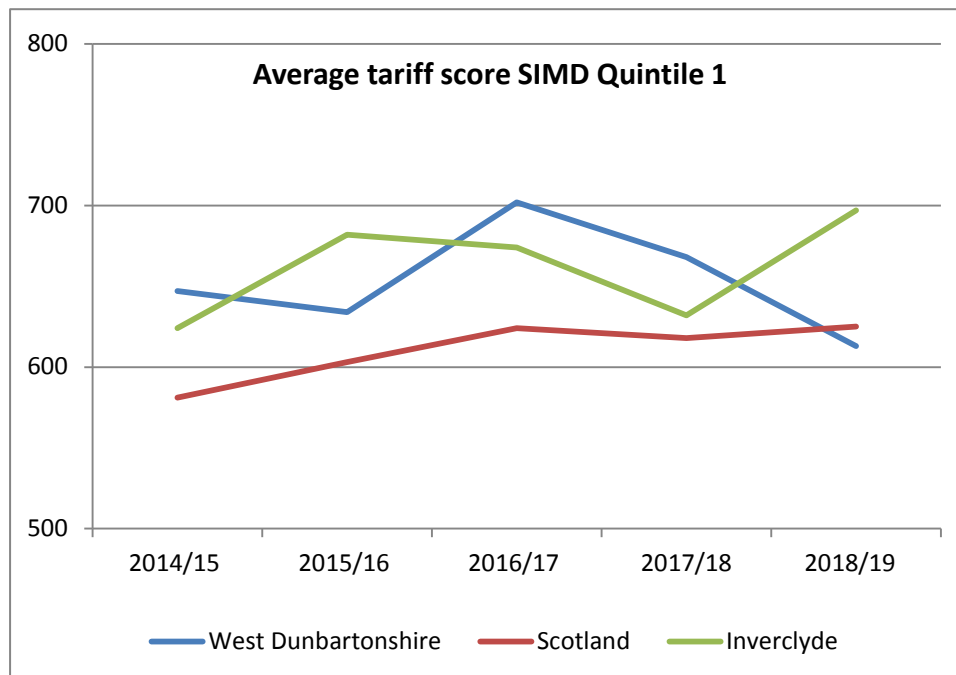

Indicator:

Average tariff score SIMD quintile 1

Target:

710

**What does the data say?**

The latest results for 2018/19 show that West Dunbartonshire performance has reduced from the previous year by 56 to 613. This is 12 below the Scottish average of 625.

Many indicators focus on academic success, which can vary year on year by cohort. As such, Education, Learning & Attainment carry out trend analyses to ensure improvement over time.

The data for 2019/20 will not be available until February 2021.
