

Priority 1

Objective 1:

Increased skills for life & learning

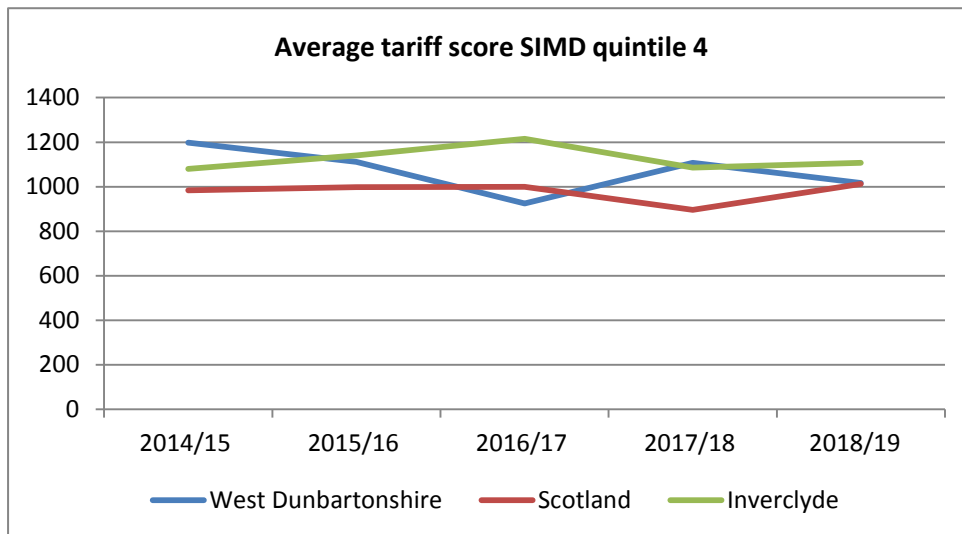

Indicator:

Average tariff score SIMD quintile 4

Target:

1054

What does the data say?

The latest results for 2018/19 show that West Dunbartonshire has shown a decline in performance from the previous year .

2018/19 saw performance above the Scottish average and below our statistical neighbour of Inverclyde.

Many indicators focus on academic success, which can vary year on year by cohort. As such, Education, Learning & Attainment carry out trend analyses to ensure improvement over time.

The data for 2019/20 will not be available until February 2021.
