What does the data say?

Results for 19/20 (most recent data) show that the target has been met.

This indicator is sourced from the Place Standard survey work that is undertaken by the Council in different communities, and repeated every 30 months. It covers the physical elements of a place, e.g. buildings, spaces, transport links, as well as the social aspects, including whether people feel they have a say in decision making.

The next survey will be held in 2022/23.
